Important Customer Information – Notification of WAT-230V2 NTSC End of Production

First and foremost, thank you very much for your continued business. We are committed to continue to deliver quality products to you.

With this letter we inform all Watec customers of WAT-230V2 camera that we are initiating the end of life process for the WAT-230V2 NTSC model.

After the discontinuation announcement of CCD sensors from Sony, we submitted a blanket order in order to guarantee for the delivery of Watec cameras with the CCD sensors in the future. Considering the remaining number of CCD, the product listed above in this announcement is no longer available as soon as the present stock has run out. On the other hand, we will be able to supply the PAL version for a few more years.

Therefore, please contact our distributor for the last-buy order when needed.
Please note that, the number of the last stock is limited already.

We plan to develop the 1/4" miniature color CMOS camera which will replace the WAT-230V2.

If you have any further questions, please contact us anytime.

Sincerely,

Watec Co., Ltd.
